BRAND STRATEGY

Brand Identity + Logo Concepts

Option A

Classic badge mark

Compact. Iconic. Merch-ready.

Option B

Stacked wordmark

Bold hierarchy. Premium feel.

Option C

Minimalist icon

App icon. Wearable. Statement.

AI (Artificial Intelligence) + **EI** (Emotional Intelligence)

Name Power

"Top Performer" is aspirational, universal, and SEO-friendly. It speaks to athletes, executives, students, and anyone who refuses to settle. The name IS the promise.

Market Position

Not a "mental health app" (stigma kills downloads). It's a PERFORMANCE tool. The 1% advantage that separates winners from everyone else. Think Nike for the mind.

Marketing Strategies That Print Money

"Are You In The 1%?" Campaign

Social media quiz funnel. Users take a 60-second "mental performance" assessment. Results show their score and invite them to join the TP 1%. Viral shareability built in.

Influencer Athlete Partnerships

Partner with fitness influencers, MMA fighters, entrepreneurs. "This is my secret weapon." Authenticity sells. Target micro-influencers (10K-100K) for better ROI.

Corporate Wellness Packages

Pitch to HR departments: "Reduce burnout, increase productivity." Offer team dashboards and bulk pricing. \$5/user/mo at scale = massive B2B revenue.

TikTok/Reels Content Engine

Daily 30-second "mental performance tips" from the app. Quick wins, motivation, transformation stories. Hook: "What the top 1% do every morning that you don't."

Referral Competitions

Monthly referral leaderboard with prizes. Top referrers get free lifetime access, merch, or cash rewards. Creates army of brand ambassadors.

Launch Day Scarcity

"First 1,000 users get Founding Member status + lifetime 50% discount." Create urgency. Limited badges. Exclusive community access. FOMO drives downloads.
